PROFILE

SHAHZAR ASGHAR

UI/UX Designer | Product Design & Interactive Interfaces

Karachi, Pakistan | +92 314-5959803 | shahzarasghar.official@gmail.com

Portfolio | **Figma Showcase** | **Behance** | **LinkedIn**

Detail-driven UI/UX and Product Designer with proven experience crafting modern, conversion-focused, and accessible digital products across mobile and web platforms. Expert in transforming complex requirements into wireframes, design systems, and high-fidelity interactive Figma prototypes. Track record collaborating with front-end engineers and cross-functional teams to build scalable component architectures and deliver intuitive user journeys.

DESIGN & TECHNICAL SKILLS

Design & Prototyping: User Interface (UI) Design, User Experience (UX) Design, Mobile App Design (iOS/Android), Responsive Web Design, Wireframing, High-Fidelity Interactive Prototyping, Information Architecture, User Flows, Micro-interactions

Design Systems & Methods: Scalable Design Systems, Figma Auto-Layout & Tokens, Component Libraries, Usability Testing, Heuristic Evaluation, Accessibility (WCAG), User Research, Developer Handoff

Tools & Workflow: Figma, FigJam, Adobe XD, Adobe Photoshop, Illustrator, Whimsical, Miro, Git, Agile / Scrum

EXPERIENCE

Digital Experts Dev — UI/UX Designer **May 2025 – Present**

- Lead product interface and experience design across client web platforms, crafting intuitive navigation architectures and modern visual design languages.
- Construct and maintain comprehensive Figma component libraries, style guides, and design tokens to accelerate cross-team production speed.
- Collaborate with developers on design system implementation, responsive layouts, and cross-browser visual QA.

Uxtrinsic — UI Designer **Nov 2024 – Apr 2025**

- Conceptualized user flows, responsive layouts, and click-through interactive prototypes for SaaS tools and consumer dashboards.
- Conducted iterative usability tests and UX audits, identifying interface friction points to improve core user retention and task completion.
- Standardized accessible color palettes, typography scale, and responsive grid behaviors compliant with accessibility standards.

Firnas.tech — UI/UX Designer **Mar 2024 – Oct 2024**

- Designed wireframes and polished UI screens for multi-platform web applications, driving user-centric feature discovery.
- Partnered closely with engineering teams in agile sprint cycles to inspect staging builds and maintain exact design specification fidelity.

SELECTED DESIGN PROJECTS

Beba Brew — Specialty Coffee Mobile App
Mobile UI/UX Design & Prototype (Figma, iOS & Android)
Designed an end-to-end mobile commerce experience for specialty coffee ordering, pickup scheduling, and rewards. Created the complete onboarding journey, custom beverage modifier system, and interactive order-tracking prototypes with micro-interactions.

Glamur Paints — Brand & E-Commerce Platform
Web UI/UX & Design System | Responsive Desktop & Mobile
Designed user journeys, visual identity systems, and interactive tools including a paint coverage calculator and shade explorer for a commercial manufacturing platform, optimizing user conversion funnels and product catalog readability.

Literary Publisher — Publishing Platform
Web Design & Layout Architecture
Structured user-centered service discovery flows, pricing matrices, and author onboarding portals, achieving clean content hierarchy and strong accessibility across desktop and mobile screens.

EDUCATION

BS Computer Science — Abbottabad University of Science & Technology **2021 – 2024**
